

Quality Policy

The main activities of PolyNet Ltd. are to develop, manufacture and install telecom equipment, as well as to provide network design and network operation support services. By establishing and operating a quality management system according to the MSZ EN ISO 9001:2015 standard, we are committed to the strategy of continuously improving the quality of our products and services.

Our principles are:

- Maintaining the economically efficient operation of our company; increasing our market share in network synchronization; providing honest living for company employees and owners
- Preserving our staff having a high level of expertise and thus further improving the good reputation of our company
- We strive to always observe the laws, regulations and standards associated with our activities with responsibility
- Satisfying our customers' demands at a higher level than competitors do
- Continuously monitoring the market environment and trying to adapt flexibly to the changing needs of our clients
- We are committed to meeting the requirements set out by our quality management system
- Encouraging our staff members to constantly keep environment protection and awareness in mind during working activities
- Regularly reviewing and developing our company's quality management system and operational processes; setting quality objectives in the light of risks, and monitoring them continuously to check their performance.

Our objectives are:

- Continuously developing the quality of our products and services
- Continuously improving the expertise of our colleagues
- Increasing the efficiency of our sales and marketing activities, thereby expanding the volume of our international and domestic projects.

The owners and the management of the Company consider it important that our colleagues agree with the principles and goals set out in our Quality Policy and be dedicated to their work in full knowledge thereof.
